AIM:

- To create a web page using css.
- To create a web page using all the css tags.

PROCEDURE:

- The coding begins with head tag where the title of the web page is written.
- The link for the external stylesheet is given in the head tag.
- The head tag is closed.
- Then its started with body tag where the main content are included.
- The body section is added with the logo by the img tags.
- The CSS file is linked for the editing purpose.
- Finally the body tag and the html is closed starting the end of the coding.

CODING:

HTML:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
